EDUCATION

Present - 2014	Bachelor of Science (Technology) (est. graduation 5/2017) Information Networks, School of Science, Aalto University
2014 - 2011	High School Etelä-Tapiolan lukio

WORK EXPERIENCE

Present - 01/2016	Software development trainee Profit Software Oy I was part of internal development and mostly programmed in Java, but also used lot of SQL commands and procedures. Shell scripts were an everyday tool and I also became familiar with DevOps components.
10/2015	Seasonal worker Opteam Yhtiöt Oy I was a seasonal worker at Hullut Päivät, Stockmann Oyj in the grocery side. My tasks were mostly cutting and packaging different types of cheese, but I also refilled the store's shelves.
05/2013 - 10/2012	Marketing lead Kodin Apulaiset NY This was a student-run company in high school as a part of Nuori Yrittäjyys -program. My main focus was on the marketing, graphic design and website management.
08/2011 - 07/2011	Summer worker Power Stick Oy My first real summer job was in a floorball stick factory, where I assembled different floorball stick components together and packaged fully assembled sticks.

PROJECTS & CERTIFICATES

Q4/2016	Junction 2016 We tried to tackle inefficient practices in building maintenance in this Hackathon, where we created a small web application with Node.JS and React for prioritizing maintenance tasks.
Q3/2016	Certified Scrum Master
Q2/2016	Case Fakto 2016 Service design competition about machine learning, artificial intelligence and IoT. Even though we didn't make it to the finals, it was a fun and intensive one day innovation challenge.
Q3/2015	Accenture Digital Innovation Challenge 2015 In ADIC we had to come up with a digital innovation for the Finnish Defence Forces. We made it all the way to the finals at Slush, where we had 3 minutes to pitch the idea we had perfected during the intensive 2 month sprint.

LANGUAGES

Finnish	native speaker
English	excellent
German	very good
Swedish	average
Chinese	I tried

PROGRAMMING

Java	■■■■■
Scala	■■■■■
HTML5	■■■■□
